Ants, Clover Mites, Cockroaches (including Asian and German Cockroaches), Crickets, Pillbugs, Silverfish, Sowbugs and Waterbugs: Spray foundation of building up to a height of 2 to 3 feet where insects are active and may find entrance. Apply to outside surfaces of buildings where insects tend to congregate. Ants on lawns and turf: Spray around ant trails and hills. Spot Treat around nests hidden under steps, brickwork, concrete. Crickets, Fleas, Dog Ticks and Lone Star Ticks: Apply to infestation in bushes, grass or weeds. Fleas, Houseflies, Mosquitoes and Small Flying Moths: Spot treat resting areas. Insects coming to rest on treated surfaces will be killed. For control of ornamental garden insects: For use on asters, dahlias, roses, and other ornamentals. Spray directly to kill Aphids, Armyworms, Clover Mites, Japanese Beetles, Leafhoppers, Leafminers, Mealy Bugs, Pavement Ants, Spiders, Spider and Red Mites, Exposed Turfgr and Whiteflies. Also for use as a multi-purpose spray in small ornamental gardens and for spot treatments to prevent insects from spreading into large garden areas. May be used on other plants such as African violets, asters, azaleas, begonias, carnations, chrysanthemums, delphiniums, dogwood, English ivy, euonymus, fuchsia, geraniums, zinnia, grape vine, Karita palm, laurel, maripops, rhododendrons, rubber plants, snapdragons, stocks, wandering Jew and zinnias. When spraying plants, use a sweeping motion. Spray insects directly whenever possible. Be cautious about wetting tender foliage, young plants and new growth. Do not spray plants when temperatures exceed 90°F. Over application may cause damage. Repeat treatment as necessary but not more than once per week. Resistant: Do not allow children or pets to touch the treated surface until it has dried. Do not use in commercial food handling establishments, restaurants or other places where food is commercially prepared or processed. Do not spray more than once per week. Do not use on edible crops. DO NOT apply to vegetable plants or other plants used for food. Not for use on plants grown for sale or other commercial use. Do not spray animals directly. Do not apply to clothing.

STORAGE AND DISPOSAL:
 Do not contaminate water, food, or feed by storage and disposal.
Storage: Store in a cool, dry area inaccessible to children and pets and away from heat, sparks and open flame. Protect from freezing. If freezing occurs, allow product to thaw and shake well before using. Some product separation may occur on freezing which is reversible on shaking. Freezing does not adversely affect the performance of this product. **Recycling:** Reusable trigger sprayer. Do not discard. Keep the Reusable trigger sprayer for use with refills of equal size. **Container Handling:** Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partially filled: Call your local solid waste agency or 800-828-5884 for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS
Hazards to Humans & Domestic Animals
CAUTION: Contact with product may result in transient tingling and reddening of the skin. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. **Environmental Hazard:** This product is extremely toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area. Do not contaminate fish ponds or apply directly to water. **Physical or Chemical Hazards:** Do not apply this product in or on electrical equipment due to possibility of shock hazard. Some hard surfaces may become damp if sprayed. Avoid slips or falls.

Product Information: Remove or cover exposed food and dishes. Cover exposed countertops and other food related surfaces. Do not spray into the air. Test in an inconspicuous area before applying. Wash thoroughly after spraying. Spray until surface is moist but not dripping. Approximately 4 pulls per square foot. Over application may cause damage.

INDOORS:

Hold container upright and spray away from face. Set the reusable trigger sprayer to the on position. Ants, Boxelder Bugs, Cockroaches, Fleas, Ground Beetles, Pillbugs, Roaches, Silverfish, Sowbugs, and Waterbugs: Apply as a spot and crack and crevice treatment to areas where these pests crawl and hide, paying special attention to ant trails, hidden areas around sinks and storage areas, behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, the underside of shelves, drawers, bookcases, and similar areas. Can also be used in basements. Centipedes, Crickets, Scorpions, Spiders and Stink Bugs: Spray directly. Carpenter Ants: For effective control, locate and treat nests and surrounding areas. Apply around doors and windows and other places where ants enter premises and where they crawl and hide. Spray into infested wood through existing openings. Ticks (including Deer Ticks which May Transmit Lyme Disease) and Fleas on Pet Surfaces: Remove pet bedding and destroy or clean thoroughly. Spray pet resting quarters. Adult Fleas and Larvae contacted by spray will be killed. Put fresh bedding down once spray has dried. Do not spray animals directly. For best results, pets should be treated with an appropriate flea and/or tick control product registered for use on pets before allowing them to return to the treated area. Spray rugs and carpets where infestations are bad. Delicate fabrics should be tested for staining in an inconspicuous area prior to use. Gnats, Houseflies, Mosquitoes and Small Flying Moths: Spray resting areas. Insects coming to rest on treated surfaces will be killed. Chocolate Moths, Cigarette Beetles, Clover Mites, Cluster Fleas, Drugstore Beetles, Flour Beetles, Grain Beetles, Lesser Grain Borer, Rice Weevils, Spider Beetles and Tobacco Moths: Spray insects directly. Remove all food-stuffs, utensils and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves and in cracks and crevices behind and under cupboards and cabinets. Allow to dry prior to replacement with new shelf paper, food and utensils. Wash any exposed food handling surfaces and utensils before use. **Wettable Chlorine Moths:** Use this product as a crack and crevice treatment in closets and other storage areas where these pests are found. This treatment will not control moth larvae already on clothes. Do not apply to clothing. To control Aphids, Elmleaf Beetles, Japanese Beetles, Leafhoppers, Leafminers, Mealy Bugs, Mites and Spider Mites on house plants: Prior to spraying, remove plants from living and eating areas. Put in an area not likely to come in contact with pets, children or food. Plants can be returned to original location when leaves are dry. If plants cannot be moved, cover or remove exposed food and food handling surfaces. Apply spray to upper and lower surfaces of foliage. Avoid wetting blossoms if possible. Avoid spraying surrounding areas.

OUTDOORS:

Hold container upright and spray away from face. Spray with wind if breeze is blowing. All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses: (1) Applications to soil or vegetation around structures; (2) Applications to lawns, turf and other vegetation; (3) Applications to building foundations up to a maximum height of 3 feet. Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors and eaves) are limited to spot and crack-and-crevice applications only. Application is prohibited directly into sewers or drains or to any area like a gutter where drainage to sewers, storm drains, water bodies or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.
